

AL110

Linear Applicator for printing
and label attaching from 110 mm

AL110 is a group of automatic label application complete of a thermal transfer printer Zebra ZE500.

This system is applied in the end of line production, where it is necessary to attach the labels on boxes, bundles or individual products, in a fast and automatic way.

The label can be applied on the upper, lower or lateral surface with the modality "in contact" concerning moving objects.

GENERAL CHARACTERISTICS

LABEL HANDLING
Marking engine ZE500 Zebra

APPLICATION SPEED
Linear, label dragging up to 200 mm/sec

PAPER TRANSIT
Maximum transit 110 mm

PASSING ROLLERS AND SPINDLES
In steel

ROLL DIMENSIONS
Massimo 300 mm

DIAMETER OF THE INTERNAL ROLL
75 mm

PRODUCT DETECTION
With photocel

APPLICATION
In contact with rubber roll

ELECTRICAL POWER
SUPPLY 90-264 Vac – 48-62 Hz

DIMENSIONS
930x800x400 mm

VERSIONS
AL112-SX, AL112-DX, AL113-SX, AL113-DX
